For more information, and to let us know about a specific site or concern in your community, contact:

Michelle Balleck, Executive Director, Craig/Moffat Economic Development Partnership (director@cmedp.com) or

Spencer Bollacker, Project Manager, Community Builders (spencer@communitybuilders.org)

Brownfields: Property with real or perceived contamination creating hurdles to reuse or redevelopment. Every community in Colorado struggle with these sites, such as former industrial sites, gas stations, dry cleaners, junkyards, mining-related sites, and landfills.

What can you do to clean them up and return them to a safe and productive asset for your community? Join us to learn more!
